

SAVE THE DATES

Lawn care is very simply using our
Lawnganic liquids
Simply apply the right product at the right
time and your lawn will love you for it

Add these notes to your calendar and then
pass this on to your neighbours

Protect against
many common lawn
insects using
Acelepryn, apply on
the first weekend in
September

Knock out
weeds the
last weekend
in July using
Bow & Arrow

Fertilise your lawn with a light monthly
application on the first weekend of each
month

Use Lawnganics Roots, Brilliance and Vitalise
for May, June, July

Use Lawnganics Brilliance, Nourish and Vitalise
for every other month

Hit us up for more
information if your
lawn needs a kick
start

Protect against
common grass
weeds with an
application of
Spartan on the
first weekend in
September and
again on the last
weekend in
February, applies
only to warm
season grasses
