

MP ORIGIN

28-1-8

300 SGN

Traces + Carbon + Beneficial Microbes

UNIQUE FEATURES

- Eco Advance premium biology with a full spectrum of trace elements
- Biologically activated for rapid and sustained release
- High analysis of nitrogen for immediate turf response
- Delivers excellent colour and vigour whilst strengthening the turf sward
- Dual nitrogen source with 30% as stabilised and 70% as carbon coated

TECHNOLOGY

MP ORIGIN fertiliser is a complete blended mineral based fertiliser with a full range of macro and micro nutrients. Granules have been biologically impregnated with over 20 different types of plant beneficial microbes designed to aid in biological plant and soil health. The microbes included various strains of Mycorrhiza (VAM), Rhizobium, Bacillus and Trichoderma. This formulation is designed to maximise turf health by providing balanced nutrition, strong root growth, re-activation of locked up soil nutrients, minimise leaching and to crowd out other harmful pathogens from plant roots.

Zeolite is a natural volcanic rock and has an advantage in its ability to store and release nitrogen, phosphorus, potassium, calcium and trace elements as required.

USE PATTERNS

MP ORIGIN can be applied as a maintenance fertiliser throughout the year. Apply MP ORIGIN between 180 to 270 kg/ha.

GUARANTEED ANALYSIS

Nitrogen (N)	27.7%
Phosphorus (P)	1.2%
Potassium (K)	8.3%
Sulphur (S)	3.7%
Calcium (Ca)	3.0%
Magnesium (Mg)	0.1%
Iron (Fe)	0.5%
Carbon (C)	1.5%
Silicon (Si)	3.9%
Manganese (Mn) ppm	192
Copper (Cu) ppm	17
Zinc (Zn) ppm	48
Molybdenum (Mo) ppm	24
Boron (B) ppm	7
Cobalt (Co) ppm	3

APPLICATION RATES

180 to 270 kg/ha
or 1.8 to 2.7 kg/100m²

SPREADER SETTINGS

	1.8 kg/100 m ²	2.7 kg/100 m ²
Accupro	P	S
Lesco	H or 16	K or 21

The spreader settings are close approximations. Trial calibration is recommended before widespread use.
