

Lawnganics ROOTS

5 - 5 - 3 + 0.35Si + VAM Natural soil health stimulants

Organic Enhancement of Soil & Plant Health

UNIQUE FEATURES

- Organic soil & plant enhancing liquid fertiliser with VAM organics
- High Phosphorus formula with optimal pH to maximise leaf uptake of nutrients
- Aids root development and seed germination
- Clean liquid product that is easy to apply via boom spray
- Enhanced organics & stimulants package

TECHNOLOGY

Lawnganics ROOTS is an organic, biologically active liquid fertiliser which will enhance plant vigour and aid in the release of locked up nutrients in the soil. The combination of Humates, Kelp, VAM and natural plant nutrients provide many advantages which include:

- An increase in root mass and root hair activity
- Aids the recovery from environmental stresses
- High tolerance of plant parasitic nematodes due to an increase in root mass from the inclusion of Kelp and natural seaweed products

VM3 ORGANICS + VAM

Lawnganics ROOTS delivers freely available Phosphorus to stimulate root growth and correct deficiency fast. Lawnganics ROOTS is formulated with VM3 organics and added VAM (Vesicular Arbuscular Mycorrhizas).

VAM is a beneficial symbiotic fungi that can colonise up to 80% of the turf root mass.

The fungal hyphae produced by VAM grow out into the soil medium further than the root hairs themselves, enhancing access to ordinarily unavailable soil nutrient. VAM releases compounds that can dissolve elements susceptible in forming insoluble compounds such as phosphorus and trace elements. Numerous studies have also shown VAM to improve the plants ability to recover from water stress.

USE PATTERNS

General rates for MP ROOTS are 200-400ml in 1.5-5L of water and can be applied as a Foliar or watered in as a drench. Lawnganics ROOTS is ideal for turf establishment and renovation, programed applications in sand content profiles will assist in maintaining soil nutrients near the plant roots. Apply via lawn and garden sprayer.

GUARANTEED ANALYSIS W/W%

Total Nitrogen	
As organic N	4.9%
Total Phosphorus	5.4%
Total Potassium	2.6%

APPLICATION RATES

200-400ml of Lawnganics ROOTS in 1.5-5L of water per 100m²
